Please do not put this onus on the citizens of a suffering
California. Your actions will have a ripple effect and futher
magnify the lack of businesses and jobs.

Comment:

In an economy where so many are struggling to survive, this cap and trade 10 is untimely. Please cease and desist implementation of these regulations. It will hurt families everywhere.
Thank you.

Comment:

Please oppose this insanity! First, after Climategate and the recent NASA study, this is far from a closed issue.

Second, this will push business & jobs out of CA.

Third, what CA does will have no effect on the world climate!

Subject: Cap & Trade proposal

Comment:

I urge you to abandon this proposal. I believe anthropogenic global warming is a fraudulent theory. The mechanics of this fraud was clearly shown in the many leaked emails from the UK, as well as other sources. The most obvious component of this fraud was the willful omission the the medieval warming period from 900 to 1100 AD. All those proposing cap & trade laws are socialists, who want to concentrate more power in the hands of government. This proposal will not help the environment. It will greatly harm the economic health of California.

Dear legislators and regulators,

It appears that you believe that you can legislate and regulate the environment into a perfect world. In response to your efforts I suggest that you do two things; really read all of the research, and, as Ayn Rand suggested decades ago, "Check you premise!"

What federal regulatory agency or body oversees this protocol.

You seem to be including Public Assets-both State and Federal without any oversight.

How are foreign corporations handled in this protocol. Will a corporation need to register under California corporation law to qualify for Cap and Trade consideration, under any of the definitions presented.

Are you incorporated GASB Governmental Accounting Standards Board or FASB Financial Accounting Standards Board.
